I am a Frontend Developer with 2 years of experience

/ work experience

(frontend web developer)

STEPLIX

ago - 2022 - present

I was responsible for the development of the frontend, using **NextJS** framework **React** library, **Redux** for state management. I also worked on the backend, using the **Node** runtime environment and the **Express** framework.

- Developing and maintaining the frontend of the company
- Working with **NextJS**, **React**, **VueJS**, **TypeScript**, **TailwindCSS**
- Working with the team in Scrum Methodology to improve the code quality and the performance of the apps

/ professional development
